

# VEGETABLES & FRUITS

Artichoke	Tavor	90 days. This is an improved variety that will yield 7-8 buds per plant. Buds are green with purple tips and are sweet and tender when eaten. Give 10 sq' per plant.
Broccoli	Spring Raab	42 days. Big plant, relatively late maturity, very versatile and good for spring and summer harvests.
Broccoli	Arcadia	94 days. Hybrid. Does not mind the heat. Bluish green heads. Big & rugged. Great broccoli for midsummer or fall. Plant 24-30" apart.
Broccoli	Green King	85 days. F-1 hybrid. Exceptional tenderness, 8" heads, uniform ripening. Does well in the heat.
Brussel Sprout	Churchill	90 days. Flavorful, medium green sprouts. Large & early. Plant 24-30" apart.
Brussel Sprout	Diablo	110 days. Hybrid. Dependable & productive variety. Medium sized sprouts. Plant 24-30" apart.
Brussel Sprout	Falstaff Red	98 days. Extremely savory sprouts with beautiful color, wide size variation but most quite small compared to green hybrids. Color intensifies after a hard frost. Plants sprawl.
Brussel Sprout	Long Island	90 days. The semi-dwarf plants are stocky with leaves closely spaced, so there are lots of tasty sprouts on the short, self-supporting stems. Heirloom.
Cabbage	Des Vertus Savoy	95 days. Open-pollinated. Large and French 4lb green cabbage. Nutty, sweet, juicy. Plant 24-30" apart.
Cabbage	Early Jersey Wakefield	63 days. Open-pollinated. Early, "old reliable", uniform. 2lb-3lb green, pointy headed green cabbage. A favorite of John Schwenks for bacon, cabbage & spuds. Plant 24-30" apart.
Cabbage	Frigga Savoy	86 days. These highly savoyed dark green leaves curl tightly around the core, and maintain a true cabbage flavor with some sweetness. Texture on the dry side. Will hold in the field for a month after maturity. Plant 24-30" apart.
Cabbage	Golden Acre	62 days. Open pollinated. Old reliable for uniformity and earliness. 3lb-5lb heads. Excellent in flavor. Not for storage. Plant 24-30" apart.
Cabbage	Super Red 80	80 days. F-1 hybrid. Smooth tight round medium-dark red 3-5lb heads. Resists splitting, tender and crisp with a pleasing flavor.
Cantaloupe	Earlichamp	75 days. Large, 41/2lb-61/2lb fruit. Flesh is sweet and thick. Plant into warm soil allowing 3 sq' per plant.
Cantaloupe	Halona	73 days. Excellent eating quality. Earlier maturity, slightly larger fruit (4lb-6lb). Has disease resistance. Plant into warm soil allowing 3 sq' per plant.
Cantaloupe	Sarah's Choice	76 days. Superior-tasting, orange flesh. Average 3lb fruit. Plant into warm soil allowing 3 sq' per plant.
Cauliflower	Charming Snow	70 days. Hybrid. This dependable producer makes cauliflower a cinch to grow. Drought resistant. Plant 30" apart.
Cauliflower	Snow Crown	60 days. Hybrid. First early cauliflower with firm white tight heads that typically weigh 1-2 pounds. Plant 30" apart.

Celeriac	Brilliant	100 days. Brilliant is a classy early celeriac, high yielding with relatively smooth roots, clean white internal coloration and superb eating quality. It's nutty parsley-celery flavor is improved by light fall frosts.
Celery	Tango	80 days. Good flavor with tender, less fibrous stalks. Tango performs well in heat and under moisture stress conditions.
Cucumber	Boothbys Blonde Slicing	63 days. Open-pollinated. Short plump oval fruits average 3-4" and become yellower as they mature but lacks the bitter aftertaste so common in many of the other white cukes.
Cucumber	Calypso, Pickling	52 days. High yield pickling cuke. Medium-dark green fruits with white spines. Plant 4" apart, when trellising.
Cucumber	Diva	A Wealden Farm favorite. Thin skinned cuke with an unnoticeable amount of seeds. Excellent cuke straight off the vine or presented at the table. Plant 4" apart, when trellising.
Cucumber	General Lee Slicing	66 days. High yields of uniform dark-green white-spined 8" slicing cukes. Excellent flavor. Plant 4" apart, when trellising.
Cucumber	Lemon Slicing	68 days. Open-pollinated. Rounded 3" fruits shaped somewhat like lemons. Very crisp and sweet, never bitter, heavy yields.
Cucumber	Marketmore 76, Slicing	58 days. Long, slender, dark green cucumbers which has long been the standard for slicing cucumbers. Plant 4" apart when trellesing.
Cucumber	Ministro Slicing	49 days. F-1 hybrid. Vigorous plants with excellent cover bear high-quality cylindrical 8-9"shiny & thin-skinned fruit. Continues to produce well into the fall.
Cucumber	National Pickling	52 days. Open-pollinated. Excellent quality throughout the season. Vigorous and dependable producers of sweet fruit excellent for pickling. Plant 4" apart, when trellising.
Cucumber	Super Zagross Middle East	54 days. Smooth-skinned, sweet fruits. Produces throughout the season. Plant 4" apart, when trellising.
Eggplant	Nadia	67 days. Hybrid. Classic long and large dark purple fruit. Plant 20"-30" apart.
Eggplant	Rosa Bianca	88 days. Open-pollinated bicolor Italian heirloom. White with lavender streaking down the side, about 5" long and 2lb average fruit with a creamy consistency and delicate flavor.
Eggplant	Rosita	84 days. Open-pollinated . Rosita is early, productive and tasty without a hint of bitterness. Pear-shaped pink-lavender fruit with white shoulders 6-8"long and 4-6"wide.
Fennel	Finale	80 days. Uniform bulbs are slightly flattened and quite large with a crisp, juicy texture and pleasant flavor. Excellent bolt resistance.
Fennel	Zefa Fino	65 days. Bulbing type, 3' with edible blue-green stems and feathery green leaves. Is resilient under stress and much less likely to bolt than traditional Italian varieties.
Kale	Lacinato	62 days. Dark green and straight sided, described as a miniature palm tree of about 18" high. Also known as "Dinosaur" or "Tuscan" Kale. Easy to use and delicious. Its sweet mild flavor improves after frost. Plant 12" apart.

TP Tender Perennial  
P Perennial

Kale	Red Russian	60 days. Highly nutritious red and purple leaves with ruffled red edges change to dark green. Excellent eaten as baby kale or mature. Stands light frost and gets even sweeter. Plant 12" apart.
Leek	Blue de Solaize	110 days. French heirloom. Able to overwinter. Green leaves develop into blue during cold times. Fat medium long shanks with a mild flavor well suited for soups. Plant 6-12" apart.
Leek	King Richard	75 days. Early leek, beautiful wide 1' long white shank. Can stand light frost. Plant 6-12" apart.
Lettuce	Anuenue	72 days. Compact as it matures with a round tightly-packed head. Does well as the days get shorter and the heat get stronger.
Lettuce	Black Seeded Simpson	28 days. Standard, light green baby leaf. An early producer of delicious, crinkly, juicy leaves. Can be grown in spring, summer, and fall. Plant 8-12" apart.
Lettuce	Bronze Mignonette	46 days. Small ruffled bronzy butterhead. Complimentary of Tom Thumb. Plant 8-12" apart.
Lettuce	De Morges Braun	64 days. Unmatched for shimmery color and smooth buttery flavor. Grows upright and as it matures, the center forms a green contrast to the pink outer leaves. This slow grower is one of the last to bolt, and never develops bitterness. Plant 8-12" apart.
Lettuce	Freckles	56 days. Austrian Heirloom. Gorgeous romaine. Also known as "Trout Back". Deep green buttery leaves flecked with wine-red freckles. Excellent flavor. Plant 8-12" apart.
Lettuce	Green Deer Tongue	48 days. Thick green pointed leaves from a compact center. Slow to bolt, has a rich nutty flavor that doesn't turn bitter.
Lettuce	Italienischer	55 days. Vigorous lettuce. Juicy and mild flavored. 18" crisp green delicious leaves. Plant 8-12" apart.
Lettuce	Jericho	60 days. Bred in the Israeli desert, great in heat. In fertile soil, can grow to be 2' tall Romaine. Crisp, juicy and unusually sweet. Plant 8-12" apart.
Lettuce	Les Oreilles du Diable	50 days. A green deer tongue tinged with burgundy, nutty bitter-free flavor with good heat tolerance. One of the last to bolt.
Lettuce	Paris Island Cos	68 days. Standard market upright romaine, grows to 8-9". The greenish-white heads fold inward to form compact centers. Even in heat, resistant to tip burn and bolting. Plant 8-12" apart.
Lettuce	Really Red Deer Tongue	48 days. Deep red color with white-green contrasting veins and pointed leaves. Not the best summer lettuce.
Lettuce	Rouge d'Hiver	65 days. Produces semi open Romaine with excellent flavor, especially in the cool weather, where it thrives. "Hiver" means winter in French. Plant 8-12" apart.
Lettuce	Summertime	70 days. Iceberg that grows in heat. Dense medium sized heads that maintain an excellent flavor. Plant 8-12" apart.
Lettuce	Tom Thumb Baby Bibb	46 days. Miniature butterhead, with tightly bunched head made up of light green outer leaves and creamy white inner leaves. This early variety has a buttery taste. Plant 6-8" apart.
Lettuce	Winter Density	60 days. Thick tender dark green leaves make superb eating. Combines the substance of romaine with the tender succulence of bibb.

Pumpkin	Connecticut Field	115 days. Heirloom. Grown for Jack o Lanterns. 15lb - 25lb. Not uniform in size or shape.
Pumpkin	Howden	115 days. Large jack oLantern pumpkin. Typically produces 4-6 fruits per plant, and can be 20lb - 35lb. Allow 18 sq' per plant.
Pumpkin	Jarrahdale	100 days. Delicious to eat. Flat, ribbed fruit a stone blue fantastic color. Martha's favorite pumpkin. Plant 2-3' apart.
Pumpkin	Long Pie	102 days. Organic. The "best pumpkin for pumpkin pies" says FEDCO. Avg 4lb fruit. Excellent storage. Fruit under 5" make great summer squash.
Pumpkin	Marina Di Chioggia	100 days. 6-12lbs. Blistered, bubbled, slate blue-green rind. Especially good for gnocchi and ravioli. Plant 2-3' apart.
Pumpkin	Musque de Provence	125 days. 10-30lb. This pumpkin is dark green, riping to bronze, and makes a great storer. Plant 2-3' apart.
Pumpkin	New England Pie	102 days. Classic New England pie pumpkin. Plant 18" apart.
Pumpkin	Rouge Vif d'Etampes	105 days. 8-15lbs. Also known as Cinderella, this brilliantly orange pumpkin makes for great eating. Plant 2-3' apart.
Pumpkin	Winter Luxury	100 days. It is agreed that the flavor is as beautiful as this pumpkin's deeply russeted, finely ruttled, golden-orange skin. Makes a smooth and velvety pie.
Squash, Summer	Early Yellow Crookneck	58 days. Organic. Deep yellow with warted skin, the narrow crook flows into a beautiful bulbous end. Excellent flavor.
Squash, Summer	Saffron	42 days. 4"-6" semi-crookneck has less warts than most and is affectionately called "mellow yellow". A steady for Wealden Farm.
Squash, Summer	Tromboncino	60 days. Open-pollinated. Tender, mild, sweet and nutty when harvested as summer squarh at 8-12". When the green-tan fruit grow very long, they are best baked as winter squash.
Squash, Summer	White Bush Lebanese	50 days. Open-pollinated. Bulbous shaped light green with white speckles. Pick fruit when young and tender or allow them to fatten for stuffing.
Squash, winter	Blue Hubbard	100 days. Traditional blue hubbard prized by squash lovers. A great keeper. Large fruit.
Squash, winter	Burgess Buttercup	Dark green, blocky medium-small, 3-5lb. fruit have deep orange, fiberless flesh with a rich, sweet flavor.
Squash, winter	Carnival Acorn	85 days. Hybrid. A small beautifully striped squash--no two have the same combination of green, gold and yellow spots. Excellent for stuffing and baking. Prolific.
Squash, winter	Galeux d'Eysines	98 days. Shaped like rounded slightly flattened pumpknis, the 15lb. fruits have salmon-peach skins covered with large warts. Delightful in soups or baked.
Squash, winter	Sunshine	95 days. F-1 hybrid. Scarlet color and sublime eating quality. Bright orange flesh is dry yet tender, sweet yet meaty.
Squash, winter	Sweet Dumpling	100 days. Ivory colored green-striped fruit shaped like mini pumpkins, 1-1/2lbs. Buttery richness and sweet-tangy taste.
Squash, winter	Table Queen Acorn	90 days. An excellent keeper and easy to cook with, acorn is a favorite among our customers and our family.
Squash, winter	Waltham Butternut	105 days. Traditional butternut squash with a sweet nutty flavor. A great storer. 2lb - 8lb fruit.

Squash, winter	Zeppelin Delicata	100 days. Organic. John's favorite delicata. Almost nutty taste and a steady producer of striped winter squash. Good keeper.
Tatsoi		45 days. This plant forms beautiful, compact rosetts with mild brassica flavor. It grows fast, and even when seeded in late August will withstand frost. Great stir-fried, in soups or even in salad! Plant 4" apart.
Tomatillo	Toma Verde	60 days. Early-maturing, large, flat-round green fruit. Use in salsa or Mexican cooking.
Tomato	Amish Paste	85 days. A long-time favorite heirloom. A large sauce tomato, (8-12 oz) with excellent flavor. Good for salads and processing.
Tomato	Black Cherry	75 days. Organic. These cherry tomatoes can boast a complex flavor that will make you wish they were more than two bites each. Their dark-hued color can get lost in the foliage, but be aware they will crack in rainy weather. Plant 3' apart.
Tomato	Black Krim	80 days. Krims should be harvested when half green and still firm this is when they are dead ripe. Heirloom fruit avg. 12-18oz. Interiors are part black with an unusual juicy yet meaty taste and texture.
Tomato	Black Prince	75 days. Produces 5-7oz. garnet colored fruit. Outstanding flavor and heavy yielding.
Tomato	Cherokee Purple	77 days. Organic. Some people say the best tasting heirloom tomato. 10oz - 13oz globes. Plant 3' apart.
Tomato	Cosmonaut Volkov	65 days. Open pollinated. Early, usually ripening deep red slightly flattened 8-12oz. fruit in early Aug.
Tomato	Glacier	56 days. Open-pollinated. Potato-leaf foliage. 1-2" fruit.
Tomato	Green Zebra	77 days. Organic. This unusual tomato starts out with green and darker green stripes, and as it ripens, the colors turn to soft a yellows and apricot. Small to medium fruits are green inside and hold up nicely. Plant 3' apart.
Tomato	Honey Bunch Red Grape	45 days. Very early, with top sweetness when allowed to fully ripen in the garden which is easy since they are crack resistant.
Tomato	Jet Star	72 days. Traditional red slicing tomato with excellent flavor. Chefs ask for it. Plant 3' apart.
Tomato	Lucia Grape	54 days. They taste like a red "Sun Gold" and are super crunchy with some crack resistance.
Tomato	New Girl F-1	62 days. Better tasting and more disease resistant than Early Girl.
Tomato	Pink Brandywine	82 days. Heirloom with great familiarity. Beefsteak fruit. Low acid. An excellent sandwich tomato. Plant 3' apart.
Tomato	Principe Borghese Cherry	75 days. An Italian heirloom with excellent flavor. With few seeds and little juice it has prolific clusters over a long season and has little cracking.
Tomato	Prudens Purple	72 days. Rich tomato taste. Vigorous pink 1lb fruits. Great sandwich tomato. Plant 3' apart.
Tomato	Rose de Berne	80 days. Organic. Medium-sized pink tomato. Packs the punch of a larger tomato and considered in Europe to be the best tasting tomato. Plant 3' apart.

Tomato	Striped German	78 days. Organic Heirloom. Bicolor red and yellow fruit with ribbed shouldered fruit is also marbeled inside. The smooth texture and complex flavor make for a fantastic eating experience. Plant 3' apart.
Tomato	San Marzano Paste	78 days. Tall vines produce heavy yields of long, cylindrical fruit. Meaty flesh makes for good sauce.
Tomato, cherry	Sun Gold	57 days. Hybrid. Prolific, absolutely delicious fruit. Best eaten straight off the vine. A sunny gold cherry tomato. Plant 3' apart.
Tomato, cherry	Super Sweet 100	78 days. A sweet, oval, red cherry tomato. Looks great with sungold on a salad. Plant 3' apart.
Tomato	Valencia	76 days. Yellow fruit averages 8-10 oz. Meaty interiors have few seeds.
Zucchini	Black	50 days. Open-pollinated. Dark green fruit with excellent flavor and good yield. Best picked around 6".
Zucchini	Cocozelle	53 days. Open-pollinated. Rich-flavored zucchini ribbed with light green stripes.
Zucchini	Raven	48 days. Hybrid. Sets the standard for dark zucchini with its smooth skin and glossy green-black fruits.
Zucchini	Spineless Beauty	46 days. Hybrid. Medium dark green fruits. A Wealden favorite.

## FLOWERS

Asters	New Hybrid Mix	P	Bloom the first year in a range of colors from red to purple and bluish to white from August to November on 4' tall plants.
Butterfly Weed		P	Orange flowers, sun lover, blooms from June until frost, 2x2' plants ,flowers attracts butterflies. Both the flowers & seedpods are good for cut flowers. Exceptional drought tolerance.
Calendula	Pacific Beauty Mix	A	Classic lovely yellow and orange mix. Excellent for making salves.
Cleome	Rose, Violet & White Queen	A	This old-fashioned Spider Flower sets open flower clusters atop 4' stalks. Blooms all summer and likes hot, dry conditions.
Coreopsis	Early Sunrise	P	Blooms weeks earlier than other coreopsis. 18" plants with 2" semi-double golden-yellow blooms. For cuts, harvest when flowers are just starting to open
Cosmos	Sensation Mix	A	85-90 days. Sun-loving, flowers all summer. Colorful daisy like flowers. Space 9"-12" Pinks, roses, magentas, occasional whites.
Cosmos	Versailles Mix	A	Developed especially for cutting. Early blooming, vigorous, strong stems, 2 1/2"blooms in shades of pink, white and red.
Dahlia	Harlequin Mix	T P	2 1/2" blooms. Predominately maroon & scarlet yellow bicolors but also includes orange, violet, and rose. 12" - 14" plants.
Daisy	Alaska Strain Shasta	P	Hybrid. The first man-made flower. These are the iconic field flower with bright white petals surrounding a sun-yellow center.
Delphinium	Astolat Pacific Giant	P	Magnificent dense racemes make these excellent as a border, or as a cutflower. A perfect pastel mix of lilac, raspberry, and rose with dark bees. 6'
Delphinium	Black Knight Pacific Giant	P	Magnificent dense racemes make these excellent as a border, or as a cutflower. These regal flowers are intense dark purples with black bees. 6'

Delphinium	Summer Skies	P	Magnificent dense racemes make these excellent as a border, or as a cutflower. Light aquamarine with white bees. 6'
Dianthus	Db. Choice Mix Sweet William	B	A fragrant self-sowing biennial with familiar flat-topped flower clusters in red, pink, white, lavender or mixed colors. Requires full sun and good drainage.
Digitalis	Foxy Mix	B	This is a Biennial, and will bloom when only 18" high, and will continue to do so until it is 3'. Each grows up to 9 spikes, each of which are covered with thimble-like flowers ranging from creamy yellow to pinks.
Echinacea	Purple Coneflower	P	Large, showy, vigorous and hardy. Flower color varies from rose to lavender to purple. 2-4'tall. Late summer blooms attract butterflies and make good cutflowers.
Hollyhock	Black Single	B	Likes full sun, lots of room and moist soil. Often reseed. Needs staking, cut flower stalks to induce reblooming. Shimmering burgundy-black single flowers.
Hollyhock	Chaters Double Mix	B	Same conditions as above. Double flowers in shades of red, pink, yellow and white. 4-5' plants. Dates back to the 1880's.
Hollyhock	Indian Spring Single Mix	B	Same conditions as above. Old fashioned single 7' beauty in shades of red, yellow, white and rose. Favored by hummingbirds.
Honesty		B	Fragrant, lavender flowers usually grown for its large coin-shaped shimmering seed pods. Likes sun. 3' tall. May not flower until 2nd year. Known as Silver Dollar or Moneyplant.
Impatiens	Accent Mystic Mix	A	Single flowers from dark magenta to pale pink all with a deep rose eye. 10-12"tall with a compact habit.
Johnny-Jump-Up	Helen Mount	A	4-5" plants, needs partial shade, flowers tricolor in violets and yellows. Flowers edible with a faint wintergreen taste.
Lavatera	Mix	A	Exotic blooms in pink shades (some white) on 2' tall bushy plants great for borders. Good for cut flowers.
Lavatera	Tanagra	A	Stalks are covered with single funnel-shaped, 4-5" deep rose blossoms on 3' plants. Cut when flowers are unfurling. Sun.
Lobelia	Crystal Palace Blue	A	The bronze-green foliage paired with deep blue flowers make this flower perfect for window boxes and beds. At 4" tall, this plant tolerates some shade but cannot stand frost.
Love-In-A-Mist	Exotic	A	Likes full sun or light shade. Deep blue blossoms with maroon stamens atop 16" stems are good for cutflowers and golden brown pods are excellent for dried arrangements.
Love-In-A-Mist	Persian Jewels Mix	A	Profuse blooms in pink, blue and white shades are a wonderful cutflower and seed heads can be used dried. Plant in full sun.
Lupine	My Castle Red Russell	P	This beautifully red version of lupine will add a spark of flame to your predominately blue patch.
Lupine	Russell Hybrid Mix	P	Dense spikes with large flowers in the purple shades. Full sun, cool moist spot, preferring sandy soil & ample room for roots.
Marigold, French	Aurora Yellow Fire	A	Bright yellow flowers inset with red flames. Extra early with large, double flowers. Compact 8-10"plants with 2 1/2" blooms.
Marigold, French	Brocade French Dwarf Double	A	Bloom early summer until frost and stand well in any weather. 2" Yellow, orange, rich reds, mahogany blossoms. 10" plants.
Marigold, African	Inca II Mix	A	Early blooming 4" double flowers in yellow, orange, primrose and gold. Compact 12-14" tall plants good for massed borders.

Morning Glory	Clarke's Heavenly Blue	A	Easily grown climber with trumpet-shaped flowers provides color and shade, decorates fence or posts. Best planted with eastern exposure. Sun loving 12' vine with intense blue flowers.
Morning Glory	Scarlet OHara	A	Very large wine-red trumpet shaped flowers on 10' vines.
Nasturtium	Empress of India	A	60 days. The brilliant crimson-scarlet flowers stand out against the equally beautiful purplish green leaves and stems, and the spicy hot flavor of the flowers rounds out this impressive plant.
Nasturtium	Jewel Mix	A	This bushy variety holds all the flowers on top of the 16" stems. Early free-flowering blend of colors.
Nasturtium	Tall Climbing Mix	A	65 days. 2' tall plants with red, orange, gold, & bicolor shades. The red blossoms are spicier than the lighter colors. Because this plant doesn't have tendrils, it cannot "climb" but it will spread out and fill large spaces.
Painted Tongue	Royale Mix	A	15-20" plants produce masses of 3" trumpet flowers in colors ranging from chocolate, purple and yellow to bicolors. Prefers partial shade, good drainage and protection from the wind.
Pansy	Brush Strokes	A	Flowers are purple, pink, yellow and light blue striped with white and yellow brush strokes. Dwarf 6" plants.
Pansy	Majestic Giant Mix	A	Two weeks earlier than other extra-large pansies. 4" blooms on 6-8" plants.
Petunia	Easy Wave Beachcomber Mix	A	Easy Wave petunias are large-flowered, spreading plants good for baskets, containers or gardens. Bloom freely all season without the need to be cut back. Shades of blue, coral reef and shell pink.
Petunia	Old-Fashioned Vining	A	Fragrant blossoms in a mixture of white, pink, lavender and purple. Strong plants have trailing 2-3' stems and work well in hanging baskets and borders.
Phlox	Drummondii Mix	A	Large-flowered mix of red, pink, white and salmon with white eyes. 6-8". Full sun in moist well drained soil. Good for cutting.
Salvia	Gentian Sage	A	Clear bright cobalt blue 12-15" long flower spikes on 2 1/2' plants. Like full sun and dry conditions. Good for cutting.
Snapdragon	Rocket Mix	A	120 days. Long stems & vibrant pink, red, yellow, orange, white and orchid colors. Excellent for cutting. Plant 9"-12" apart.
Stock	Vintage Mix	A	Fragrant mix of pink, lavender, red, rose, peach, yellow, copper and white large flowers. About half will have fully double blooms. Early blooming on sturdy well-branched 15-20" plants.
Sweet Pea	Black Knight	A	Highly scented deep maroon flowers. Heat tolerant. 5' - 6' vines. Like full sun and moist rich soil. Can be grown for cut flowers.
Sweet Pea	Cupani	A	One of the most fragrant sweet peas. Cupani combines deep maroon-purple upper petals with deep violet-blue lower petals.
Verbascum	Southern Charm	P	Hybrid. Strong 2-3' stalks, topped with gorgeous two tone blossoms in spectacular pastels like peachy-rose, creamy gold, and lavender, each with a fuzzy rosy-purple center.
Verbena	Imagination	A	Blue-violet flowers on 12" tall creeping stems. Great for hanging baskets, planters and beds. Likes full sun and tolerates drought.
Zinnia	Cactus Bright Jewel Mix	A	75 days. Large ruffled zinnia blossoms in scarlet, orange, pink and yellow. Grows to 3' in full sun and like heat. Good for cutting.

# HERBS

Basil	Italian Large Leaf	A	78 days. Large plants with medium-dark green leaves up to 4" long. 24-30" tall with a sweet less clove-like taste. Likes sun.
Basil	Napoletano	A	75 days. Lettuce leaf type with huge, frilly 4" long leaves that tend to be lighter in color with a spicy, traditional basil flavor.
Basil	Thai	A	60 days. Sun. Green, 2" long leaves w/spicy, clove flavor. Purple stems & blooms. 12"-18" tall. Responsible for the distinctly strong, licorice-anise flavor in Thai food.
Borage		A	50-60 days. Sun. 18"-30" tall. Plant 12" apart. Mostly blue with some pink flowers. Bees love it. Blossoms great in salads.
Chamomile	Bodegold	A	65 days. 18"-24" tall. Higher yielding than German Chamomile. Flower heads are ready to gather when petals fall away from center.
Cilantro	Caribe	P	55 days. Known as a hardworking plant that will produce lots of excellent eating foliage as well as great flavor.
Rosemary		A	Can grow to 3-4'. May be overwintered indoors if kept cool and moist. Needle-like leaves impart a robust resinous flavor good for pork, chicken and potatoes.
Dill	Bouquet	A	55 days. Grows to 4', likes well-drained moderately rich soil.
Hyssop		P	Aromatic border plant with spikes of indigo flowers. Add slightly bitter leaves to salads, soups and stews.
Lavender	Vincenza Blue	P	Compact 1' plants have flower spikes with deep color from mid-July to early Sept. More compact and stronger aroma than common lavender. Needs full sun.
Lemon Mint		A	Pinkish-purple flower spikes on 2-3' plants are long-lasting cut flowers and can be dried. Leaves are delicious and used for tea.
Oregano	Greek	P	Low-growing with fragrant dull green and purple leaves and white flowers. Harvest when it is beginning to flower.
Parsley	Forest Green	A	75 days. Double-curved with long upright stiff stems. Tolerates heat and repeated cuttings.
Parsley	Gigante d'Italia	A	70 days. Flat-leaved heirloom from Northern Italian. Grows to 1' with a rich sweet flavor. Very hardy.
St. John's Wort		P	Medicinal herb widely known as a folk remedy for emotional disorders. Shrubby plant with yellow flowers. 12-16" tall and flowers early.
Sorrell	Broad leaved	P	60 days. Likes cool weather, acid soil, partial shade and plenty of water. Snip the leaves while young and tender. Adds tang to soups and salads.
Summer Savory		A	70 days. Grows to 1 1/2'. Cut often before blossoms appear. Use with dry or green beans, rice and stuffing. Beautiful in fall with dark purple foliage and lavender flowers.

TP Tender Perennial  
P Perennial  
A Annual

Thyme	German	P	Creeping perennial. 12" plant. Bees love it. Used in tea it may calm the nerves & soothe your headaches.
Valerian		P	Known as Nature's tranquilizer, the roots of this plant are used to reduce tension and anxiety, alleviate insomnia, and relieve muscle spasms, and uterine or bowel cramping. Tall leafy 3-5' plants with clusters of honey-scented pale pink flowers. Plant 1' apart in moist fertile soil.
